"The strongest reason for the people to retain the right to keep and bear arms is, as a last resort, to protect themselves against tyranny in government."
- Thomas Jefferson

Special Issue

PROPOSED BYLAWS CHANGE

In accordance with ARTICLE X of the Bylaws, this constitutes mailed notification to all members that there will be a presentation and subsequent vote on proposed bylaws changes at the June 2008 general membership meeting. Also in accordance with ARTICLE X, a quorum of 10% of the members must be present for the vote to be held.

The proposed bylaws changes (1) address issues associated with the current process for screening/accepting applicants for membership in the Association, (2) create a two-tier membership system (voting and non-voting) to better ensure that quorums can be achieved at meetings where required to conduct Association business, (3) provide for a trial or provisional membership period where newly accepted members will be given the opportunity to demonstrate good character, competency in safe firearms handling, and commitment to the objectives of the Association, and (4) clarify and harmonize existing member categories and privileges and create a new category (Associate Member) for new members who have passed out of the Provisional Member category. It should be noted that except as described below, these changes do not affect any current Individual or Life members or Individual members accepted prior to the approval date of the bylaws change.

...these changes do not affect any current Individual or Life members or Individual members accepted prior to the approval date of the bylaws change.

The creation of a Membership Interview and Inquiry Subcommittee reporting directly to the Board of Directors (as the Membership Committee) will allow for this member notification procedure as well as allow the scope of the current interview process to be expanded as necessary.

The proposal provides a process whereby members will be afforded greater opportunities than the current process allows to comment on the desirability or lack thereof of accepting prospective members into the Association. The creation of a Membership Interview and Inquiry Subcommittee reporting directly to the Board of Directors (as the Membership Committee) will allow for this member notification procedure as well as allow the scope of the current interview process to be expanded as necessary.

The purpose of the two-tier (voting/non-voting) membership - to better ensure achieving a quorum - requires a finite number of voting members and the proposed number of voting members is 300. However, that is a target number which would be achieved over time and through attrition. This change could affect current members; however, all Life and current Individual members, regardless of the number that are on the Association membership rolls at the time of bylaw change approval, will continue to be voting members and will be able to maintain that status as long as their annual dues (except for Life Members) are paid by February 1st of each year in accordance with the Bylaws ARTICLE III, Section 2, D(1). Life and current Individual members will continue to enjoy all the privileges of Association membership. Non-voting

ByLaws, continued on Page 3.

SANCTIONED WEEKENDS

May 17 & 18; June 21 & 22; Sept. 13 & 14, Oct. 18 & 19; Nov. 1 & 2

members, in addition to not being eligible to vote, will not be eligible to hold office, nominate candidates for office, or to sponsor new members. Non-voting members would be eligible, based on seniority or length of tenure as Associate members, for conversion to Voting member if the number of Voting members becomes less than 300.

The purpose of the trial/provisional membership period is to allow new members to demonstrate to current members their good character and commitment to the objectives of the Association as well as provide training in and an objective measure of the new member's safe firearms handling abilities. Until they are converted to Associate Member status, Provisional Members would not be authorized to use the ranges unsupervised and will not be given the gate combination. Part of the Provisional Membership process that will affect current members is a mentoring requirement for new member sponsors and will require sponsors to mentor any new members they sponsor for membership, i.e. to help the new member fulfill the requirements for Associate Membership during the Provisional Membership period.

The purpose of the trial/provisional membership period is to allow new members to demonstrate to current members their good character and commitment to the objectives of the Association as well as provide training in and an objective measure of the new member's safe firearms handling abilities.

The new Associate Member category is part of the two-tier membership proposal and is the name for the annual membership category which has non-voting status. When new members have met the requirements of their Provisional Member status, they are eligible to be considered for Associate member status. This change

will also affect current members who are not Life or Individual members (Student, Family, and Honorary members) and brings the privileges of Family membership (paying 25% of the current annual dues) in line with the privileges of Student membership (paying 50% of the annual dues) and Honorary Annual membership

(paying nothing). Student and Honorary Annual members are currently non-voting. This change would make Family members non-voting members as well. The new categories would be Individual Associate, Family Associate, Student Associate, and Honorary Associate member. Only Individual Associate members (paying the full annual dues) would be eligible for the previously mentioned conversion to Voting member status.

The Board of Directors voted to approve these changes to the bylaws and recommends them to the membership for their approval.
